Plasmare la materia per dare vita a nuove forme

Lombardini Srl dal 1955 a oggi ha estruso 175.908.000 metri di profili in oltre 158 colori in 3.572 sagome diverse rispondendo alle specifiche esigenze dei suoi clienti.

Grazie alla continua e costante spinta all'innovazione che da sempre anima l'attività dell'azienda, Lombardini Srl è in grado di realizzare profili monoestrusi, co-estrusi e triestrusi, con i più noti materiali termoplastici oggi presenti sul mercato.

Moulding new shapes

Since 1955 Lombardini Srl has been extruding 175.908.000 meters of profiles with over 158 colours and 3.572 different shapes to meet any specific requirement.

Thanks to an uninterrupted strive for innovation that has always supported the company's business, Lombardini Srl can manufacture mono-extruded, co-extruded and tri-extruded profiles, using the most common thermoplastic materials available.

La gamma di prodotti si divide in - The product range includes

biflex®

*coestrusi e triestrusi
co- and tri-extruded profiles*

sigilgomma®

*monoestrusi e coestrusi
in gomma termoplastica
thermoplastic rubber
mono- and co-extruded profiles*

sigilplast®

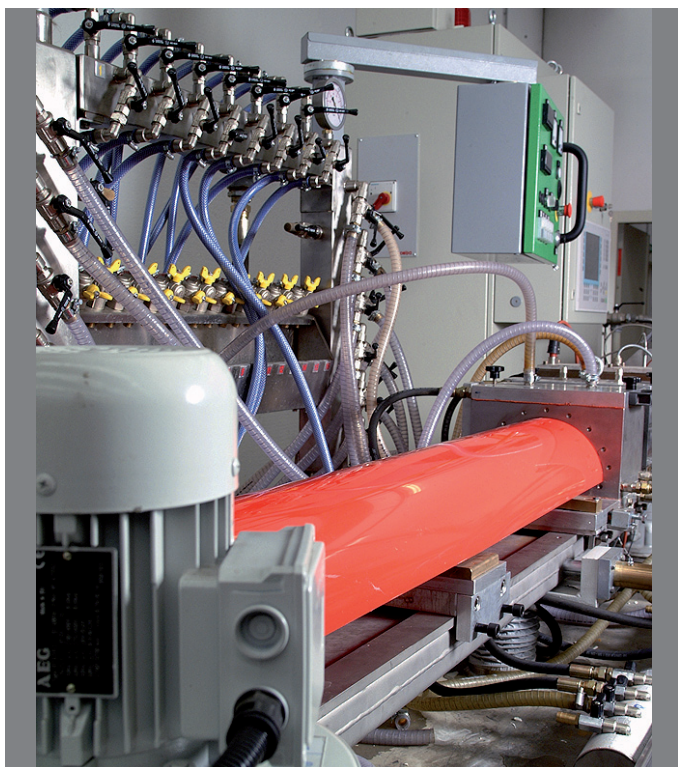

*monoestrusi flessibili
flexible mono-extruded profiles*

tecnopro®

*monoestrusi e coestrusi rigidi
rigid mono- and co-extruded profiles*

TEC-NPR®

*stampati a iniezione
injection molded*

Profili su misura al 100%

L'ufficio tecnico di Lombardini Srl, interpretando le richieste del cliente, studia la fattibilità, suggerisce eventuali modifiche e realizza il disegno esecutivo dell'attrezzatura. L'officina meccanica interna costruisce la filiera e il relativo calibro di raffreddamento per la corretta estrusione del profilo richiesto. Il profilo estruso può essere ulteriormente personalizzato attraverso trattamenti superficiali quali foratura, tranciatura a passo, biadesivizzazione e confezionamento in kit. Il processo produttivo di Lombardini Srl è certificato **ISO 9001-2008**.

100% customised profiles

*Meeting customers' requests the technical department at Lombardini Srl analyzes the application, suggests possible changes and designs the equipment. The in-house workshop manufactures the tools and the corresponding cooling gauge to correctly extrude the required item. The extruded profile can be further customised with surface processing such as drilling, step blanking, double adhesivation and kit packaging. The manufacturing process of Lombardini Srl has been awarded the **ISO 9001-2008** certification.*

La linea di prodotti Custom comprende *The Custom line includes profiles for*
